EXPERIENCES

Software Product Engineer Intern | Harled

May 2021 - Aug 2021

Designed, developed, and launched an Indigenous-rooted LMS for Anishnabeg Outreach to increase access to education and technological literacy for Indigenous communities across Canada; scaled to 100+ active users within a month of launch.

Managed product features/roadmap, conducted bi-weekly client meetings/design pitches, and led product strategy.

Web Designer Intern | Gryphtech

Jan 2020 - May 2020

Created and shipped a lead relationship management widget for real estate agents to send personalized birthday messages to potential property buyers to increase lead-agent retention rates.

Designed two solutions for a mobile-based property listing generation feature to reduce listing creation time by 20%.

COMMUNITY

Product Designer | UW Blueprint

Apr 2021 - present

Scoped and designed a responsive Accessible Parking Permit (APP) renewal service and CRUD-based management tool for the Richmond Centre for Disability to streamline processing operations and eliminate data redundancy.

Currently composing and conducting usability tests to rationalize design decisions and championing nice-to-have features to refine user experience and automate arduous workflows.

PROJECT

G.e.o.r.g.e | 3rd @ HackWestern 2020

Nov 2020

Placed 3rd overall out of 103 submissions; React.js app that consolidates grocery prices to generate the most optimal grocery list for checkout.

Led product strategy and designed the end-to-end user flow of the app; conducted 3 user interviews to identify and integrate user experience improvements.

SKILLS

Product & Design

Interaction design, product thinking, visual design, design systems, wireframing/prototyping, accessibility design, usability testing, user research

Tools

Figma, Adobe Xd, Adobe CC, ProtoPie, InVision

Development

HTML, CSS/SCSS, JavaScript, Ruby, PHP, C++

Technologies
